TABLE OF CONTENTS

CITY GUIDE

Custom-made for each ICANN conference and its host city, these pocket City Guides feature destinations suggested by ICANNers and our Partners.

IMPORTANT TOPICS FOR ICANN 54

DOMAIN PRIVACY

The protocols and policy surrounding WHOIS have not changed much since its conception in the ARPANET days, but its use has changed dramatically. The resource is increasingly used for originally unintended purposes,including law enforcement, domain solicitation and data mining, causing some to register their domains through privacy/proxy registration services.

The use of these services has become a center of debate. Some stakeholders would like to see restrictions placed on the use of privacy/proxy registrations, while others defend the importance of privacy for registrants.

IANA TRANSITION

Since the NTIA announced on March 14, 2014 that it intended to transition stewardship of the IANA functions to the global stakeholder community, ICANN has focused on developing a proposal that meets the requirements set forth by the NTIA. A successful proposal will have broad community support and sufficiently address four key principles:

- Support and enhance the Multistakeholder Model
- Maintain the security, stability, and resiliency of the Internet DNS
- Meet the needs and expectation of the global customers and partners of the IANA services
- Maintain the openness of the Internet

The transition was originally set to take place on 30 September 2015, but the NTIA extended the contract to expire 30 September 2016, giving ICANN more time to prepare for the transition.

LEARN MORE: HTTP://ICW.INK/IANATRAN

ACCOUNTABILITY

Since it was created, ICANN has been held accountable by the US government's control of the IANA functions. Ensuring this accountability during and after the IANA transition is extremely important.

Concerns raised by the community have indicated that the accountability measures currently in place do not meet the expectations of stakeholders. Since "broad community support" is a requirement set forth by the NTIA, a disagreement on accountability could be a sticking point that will delay the transition.

Recently, the community proposed a "Sole Member model" as a way to ensure ICANN is held accountable to its stakeholders, but this proposal was met with resistance by the ICANN board.

NEW GTLD PROGRAM

ICANN's New gTLD Program was introduced in 2012 as a way to open up competition in the domain name markets. Now that the first round of gTLDs haas concluded, domainers and industry professionals have their eye on the future of these extensions. Will these new top level domains edge into the mainstream, what are their best uses, and how will they succeed after so many years of .com? Equally important are the reviews of the New gTLD Program, focusing on topics such as rights protection, program implementation, security and stability, and consumer trust and choice.

ICANN SCHEDULE BY TOPIC

NEWCOMER SESSIONS

Newcomer Sunday - Casual, informative, and interactive discussions about ICANN and the Internet ecosystem	Auditorium	Sun, 18 Oct	10:00-16:15
How It Works: Internet Standards Setting- Introduces players and processes used in setting Internet protocol standards	Liffey Hall 2 L4 Foyer	Sun, 18 Oct Mon, 19 Oct	9:30-11:00 10:30-12:00
How It Works: Internet Networking - High-level overview of IPv4 and IPv6, internet addressing, and data routing	Liffey Hall 2 L4 Foyer	Sun, 18 Oct Mon, 19 Oct	11:15-12:45 12:15-13:45
How It Works: Domain Name Registry Protocols - DNS protocol and extensions: WHOIS, Extensible Provisioning Protocol, etc.	Liffey Hall 2 L4 Foyer	Sun, 18 Oct Mon, 19 Oct	14:00-15:30 14:00-15:30
How It Works: Root Server Operations	Liffey Hall 2 L4 Foyer	Sun, 18 Oct Mon, 19 Oct	15:45-17:15 15:45-17:15
Newcomer Sector Awareness in ICANN - Learn to participate most effectively and meaningfully as a newcomer!	Wicklow MR 3	Sun, 18 Oct	16:00-17:30
DNSSEC for Everybody: A Beginner's Guide	L4 Foyer	Mon, 19 Oct	17:30-19:00

ICANN Public Forum	Auditorium	Thu, 22 Oct	14:00-17:30
ICANN Public Board Meeting	Auditorium	Thu, 22 Oct	17:30-18:30

NEW gTLD PROGRAM

RySG GEO TLDs - Presents the interests of those operating a geographically-oriented top level domain	Liffey B	Sun, 18 Oct	12:15-16:15
New gTLD Program Reviews - Review of security and stability, rights protection, program implementation, etc.	Liffey A	Mon, 19 Oct	14:00-15:15
Universal Acceptance of TLDs	Liffey A	Mon, 19 Oct	15:30-16:45
New gTLD Program Implementation Review	Liffey A	Mon, 19 Oct	7:00-18:15
Root Stability Study Workshop - Review of the New gTLD Program for security and stability impact	Ecocem	Tue, 20 Oct	13:00-14:15
gTLD Registries Stakeholder Group - Meeting with voting and non-voting members, observers, NTAG, and applicants	Liffey B	Tue, 20 Oct	8:00-17:00
GNSO Preliminary Issue Report - New gTLD Subsequent Procedures - Open dialogue on the report and the issues analyzed	Liffey MR 2	Wed, 21 Oct	10:45-12:15
GNSO Preliminary Issue Report on Reviewing RPM in All gTLDs - Opportunity for community to discuss recommendations	Liffey MR 2	Wed, 21 Oct	16:15-17:45

IANA TRANSITION & ACCOUNTABILITY

ICG Face-to-Face - Working session for the ICG	Liffey B	Sun, 18 Oct	9:00-12:00
IANA Stewardship Transition Engagement Session	Auditorium	Sun, 18 Oct	16:30-18:00
IANA Stewardship Transition / Enhancing ICANN Accountability	Auditorium	Mon, 19 Oct	10:30-12:30
At-Large Ad-Hoc WG on IANA Transition & ICANN Accountability	Wicklow Hall 1	Tue, 20 Oct	17:45-18:45
IANA Stewardship Transition Implementation	Wicklow Hall 2	Wed, 21 Oct	15:30-16:30
CCWG-Accountability Working Session	Liffey Hall 1	Thu, 22 Oct	8:00-10:30
ICG Working Session	Liffey B	Thu, 22 Oct	10:30-12:30

DOMAIN PRIVACY

WHOIS Review Team International Registration Data Expert WG	Wicklow MR 3	Sun, 18 Oct	14:00-15:30
NCSG Privacy & Human Rights at ICANN - Updating stakeholders on WHOIS progress, PPSAI report, and complex privacy issues	Wicklow MR 3	Mon, 19 Oct	16:00-17:30
GNSO Privacy & Proxy Services Accreditation Issues PDP WG	Liffey MR 2	Thu, 22 Oct	9:00-10:30

BE A BUILDER

Strive for quality content, but don't sweat the small stuff. Corrections can always be made. Wikis are changeable and adaptive. Take a breath and get started.

BE REAL

Professionalism, trust, and community emerge when real people are involved, standing behind their work. Using your real name substantiates your commitment to ''transparency''' and allows others to better collaborate with you. Using your real name also generates a greater investment in your work.

Preparing to Edit

NEUTRAL POINT OF VIEW (NPOV)

Neutral Point of View (NPOV) is the way in which articles on this site ar all wiki sites should be written. That is, wiki articles should not contain bias or unverifiable facts and opinions. This line can often be hard to d for example, on our site we often list the services of a given company, b we try to remove any marketing spin or unverifiable language that impli these services accomplish something that their competitors do not. Ger speaking, when opinions are stated as facts, or when unappealing facts intentionally omitted, then the article is not written from a NPOV.

At ICANNWiki, we insist on including references, and generally omit art and article sections that can not be backed up by at least one verifiable reference. We are constantly editing our articles to better adhere to our Values and improve their status as neutral articles.

SOURCES

When adding or editing content on ICANNWiki, it is important that you verifiable information with corresponding references. Third-party source such as multi-stakeholder monitored governance bodies (ISOC, ICANN IANA) or any other source known for its careful contributions to the sul of Internet governance (CircleID, DN Journal) are helpful, resourceful complements to your work.

ORIGINAL RESEARCH

ICW's dynamic and rigorous nature can be attributed to the site's empt on original research. Copying and pasting from another encyclopedia o resources does a disservice to your and your reader's education. While okay to reformulate an idea's concept for your own understanding, it is okay to closely paraphrase or plagiarize. In the end, go for simplicity an don't worry about over-explaining a concept.

What is ICANNWiki?

ICANNWiki

WWW.ICANNWIKI.COM

ICANNWiki is a grassroots, community effort to create and curate articles describing the people and organizations, terms and topics within the ICANN community. We actively seek worldwide collaboration to increase understanding of how policy is created for the continued development of the Internet, a tool which we all use everyday. In particular, we focus on the Internet Corporation for Assigned Names and Numbers (ICANN) and related international policy and management bodies.

ICANNWIKI FOCUSES ON:

KNOWLEDGE SHARING

115%

Since 2013, ICANNWiki's site traffic has increased by 115%.

Over 2,000 subscribers receive our monthly newsletter.

CULTURAL CONNECTIONS

Multlingual content in Chinese and Spanish, through in-kind partnerships. In 2016, we will double this content, with the intention of creating separate wikis exclusive to each language.

CONFERENCE PARTICIPATION

ICANNWiki's booth is amongst the most popular at ICANN conferences. Our Primer is a valuable resource highlighting key topics, acronyms, key people, the schedule, and the host city.

DIRECT OUTREACH

ICANNWiki strengthens stakeholder relationships through our Edit-A-Thon events, whi encourage conference participants to develop content on relevant Internet Governance topics.

JACKIE TREIBER

has a background in writing and editing for literary publications. She likes writing short stories, making art and learning about the city

VIVIAN HUA

is ICANNWiki's primary visual strategist and is responsible for all of the non-profit's marketing collateral and giveaways. When she is not working

RAY KING

is a long-time wiki lover who began ICANNWiki in 2005 as his first wiki project. As well as being the Director of ICANNWiki, he is also
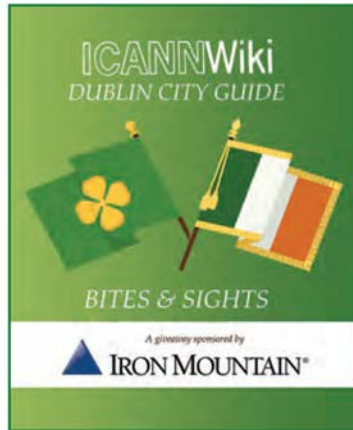

ICANNWIKI QUICKIE

Custom-made for each ICANN conference, the ICANNWiki Quickie is an all-encompassing publication that includes a City Guide rundown of the host city, and a Primer of the conference, which highlights key topics, acronyms, people, and meetings that partcipants should know about.

DUBLIN CITY GUIDE

BITES & SIGHTS

A giveaway sponsored by
IRON MOUNTAIN®

CARICATURE BADGES

Our custom-illustrated caricatures get unmatched visibility at every ICANN conference. Each caricature is printed on-demand, offering a fun alternative to generic name badges and creating a frequent source of corridor conversation! Partners receive prominent logo placement on the front of each badge.

Raymond King

VERISIGN   ICANNWiki

EDIT-A-THON

An informative event and reception which encourages direct participation from the Internet Governance community, the Edit-A-Thon addresses technical questions and teaches participants how they can build out articles on ICANNWiki and spread their unique knowledge to the wider world.

ICANNWiki

AN INTRODUCTION TO
WIKI PRINCIPLES & EDITING

This informative guide is co-presented by
amazon.com

PLAYING CARD DECKS

Unique to each conference, the playing card decks are a longstanding extension of our caricatures. Playing Card Partners have their logo exclusively featured on the card box and deck, and are given the opportunity to highlight their company and its members with special cards.
